#### Notes to the reconciliation:

a. Actuarial gain / loss on employee benefits:

Under Ind-AS actuarial gains or losses on defined benefit obligations are recognised in other comprehensive income, whereas under previous GAAP same were being charged to statement of profit and loss.

## b. Deferred Tax:

Under Indian GAAP, deferred taxes are recognised using income statement approach i.e. reflecting the tax effects of timing differences between accounting income and taxable income for the period. Under Ind-AS, deferred taxes are recognised using balance sheet approach i.e. reflecting the tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes using the income tax rates enacted or substantively enacted at reporting date.

c. Deemed cost for property, plant and equipment:

The company has elected to use previous GAAP revaluation of items of property, plant and equipment at, or before, the date of transition to Ind-AS as deemed cost. Hence, depreciation impact on revalued carrying amount of fixed assets deemed as cost of property, plant and equipment charged to profit and loss account.

d. Preference Dividend:

Cumulative non-convertible preference shares have been classified as debt as per Ind-AS. Dividend and dividend distribution tax for the period charged to profit and loss account on accrual basis.

e. Upfront Fees on Long Term Borrowings:

Under Indian GAAP, the company had charged off certain loan origination/upfront fees paid to the banks for facilitating the term loans, as finance cost in the respective year of incurrence. Under Ind-As, such financial liabilities, classified to be carried at amortised cost basis, resulting in reduction of finance cost (net of amortisation) and classified as prepaid expenses.

f. Mark to Market Gain/Loss on Derivative Contracts:

Under Indian GAAP, the net mark to market gain/losses on derivative financial instruments, as at the Balance Sheet date, were not recognised in profit and loss account. Under Ind-AS, such derivative financial instruments are to be recognised at fair value. Net mark to market gain recognised at the date of transition to Ind-AS as derivative asset and adjusted with retained earnings. Movement during the period is recognised in profit and loss account.

g. Long Term Security Deposits:

Under Indian GAAP the interest free security deposits, with fixed terms, were considered at cost basis. Under Ind-AS these financial assets have been adjusted to be carried at amortised cost, resulting in the impact of the present value being treated as cost and the interest accrual recorded to restate the asset balance over its term.

6. Pursuant to the approval of members of the Company, w.e.f 15<sup>th</sup> November, 2016 ("Record Date"), 3,94,79,934 equity shares of face value of Rs 10/- each were sub-divided into 19,73,99,670 equity shares of face value of Rs 2/- each.

- 7. The company mainly operates only in one segment namely "Textiles" and hence segment details are not required to be published.
- 8. Previous period's figures have been regrouped/rearranged wherever considered necessary to confirm to the current period's classification.
